NORTH AMERICAN RESCUE®

www.NARescue.com • 888.689.6277

Since 1996, North American Rescue® has focused on ***increasing survivability*** on both the battlefield and the homefront.

With our innovative medical/rescue equipment, NAR® continues to lead the way by delivering the ***tailored, mission-critical healthcare solutions*** needed by today's first responders to counter the rapidly evolving threats of the 21st century. See what a

lifesaving difference our combat proven

Products with a Mission®

make in the prehospital environment!

We are dedicated to decreasing preventable death by providing our products at special pricing to our EMS and pre-hospital life savers. To see if you qualify for this discount, please contact us or fill out our online NAR® Pricing Application. Our customer service department is standing by to help!

MAKE THE **RIGHT CHOICE!**

THE **C-A-T®** TOURNIQUET IS THE
**FASTEST, SAFEST, MOST
EFFECTIVE** PREHOSPITAL FIELD
TOURNIQUET IN THE **WORLD!**

1 Single Routing Buckle

- Allows for fast application which decreases blood loss
- Simplifies effective slack removal

Dimensions:

- Device: L 37.5 in. | Weight: 2.7 oz
- Packaged: H 6.5 in. x W 2.4 in. x D 1.5 in.

Free-moving Internal Band 7

- Distributes pressure across TQ width, reducing pressure spikes on the TQ band edges as seen with competitor devices
- Minimizes friction during application

2 Windlass Strap

- NEW welding process features strong adherence of strap to clip (Released 2025)
- Secures windlass rod and prevents dislodgement

3 Windlass Clip

- Rapid windlass lock from either side (ambidextrous)
- Durable construction keeps windlass secure

4 Windlass Rod

- Large diameter for strength
- Aggressive ribbing for slip-free grip
- Twist for additional tightening of the tourniquet to stop bleeding

5 Stabilization Plate

- Reinforced beveled stabilization plate minimizes discomfort and provides stable pressure under windlass

6 Red Tip Technology®

- Features NAR's signature of premium quality: red elliptical tip
- Rounded tip easily feeds through buckle

C-A-T TOURNIQUET

DON'T RISK LIVES WITH COUNTERFEITS!

- The **Combat Application Tourniquet®** has **saved more lives** than **all other** prehospital tourniquets **in the world** combined
- **Meets & exceeds ANSI/OSHA requirements** for self-applied, arterial **tourniquets** with a windlass or ratchet
- **Scientifically proven** 100% effective & trusted by the **U.S. Military**
- **Made in the U.S.A.**

CHOOSE THE GENUINE C-A-T® TOURNIQUET

RIGID C-A-T® TQ CASE *with Shirt Shield*

- Allows carriage of a Gen 7 C-A-T® Tourniquet on your duty/patrol/pistol belt (Tourniquets sold separately)
- Shirt Shield protects uniform shirts from undue friction wear
- Blade-Tech TekLok Belt Attachment fits up to a 2.25 in. belt
- Can be mounted either vertically or horizontally, or to a Safariland Drop-leg Shroud
- Injection Molded Nylon Case stands up to rugged military usage
- Cross medical identifier patch included

AAJT-S Abdominal Aortic And Junctional Tourniquet - Stabilized

- Lightest, most compact junctional tourniquet on the market
- Easy to use and quick to apply
- Large area of effective pressure for greater reliability
- Provides stable and complete occlusion of blood flow to the lower extremities, upper extremities, or pelvis
- Can be applied at junctional sites (inguinal, axillary) or mid-abdomen
- Demonstrated ability to remain in place and effective during patient movement
- Similar hemostatic efficacy to Zone 3 REBOA1
- Lower training burden compared to REBOA procedure

BUTTERFLY BVM

- Fully-adjustable tidal volume with a turn of a wheel, reducing hyperventilation risks
- Highly adaptable to complex scenarios by receiving standard PEEP valves, filters, and ET-CO2 detectors while also fitting all standard patient interfaces
- PIP Dials gives unprecedented control over pressures delivered to patients without the need for a manometer
- Delivers a 90%+ FiO2 with the help of its internal O2 reservoir to patients of all sizes when supplemental O2 is introduced at 15LPM
- The ButterflyBVM comes in three options: **Standard** (Adult mask only), **Plus** (Pediatric & Adult masks with PEEP/Filter and elbow), or **Ready** (Neonatal, Infant, Pediatric, & Adult masks with PEEP/Filter and elbow)

3.25 inch

14 ga

10 ga ENHANCED ARS™

Needle Hub
(no flash chamber)

10ga fenestrated catheters were shown to offer marked increase in air outflow and a corresponding decrease in time to relief of tension, when compared to all NDC Catheters

Centimeter Markings
(with contrasting colors that are NVG compatible) for safer placement utilizing "thoracic depth control"

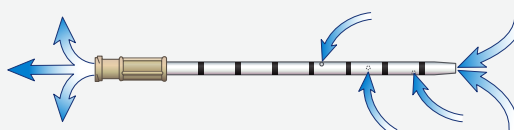

Modified Needle Tip
"scalpel" sharp, bi-bevel, tapered needle tip, which improves penetration control through tissue of varied type and thickness

Catheter Hub
color identifies needle catheter gauge

10ga (or 14ga) 3.25-inch Flexible Catheter to decrease incidence of catheter kinking, in concert with modified insertion recommendations from leading experts in pulmonology, critical care, emergency medicine, and trauma surgery.

Fenestrations showing statistically significant improvement in tension relief and the prevention of distal catheter occlusion when compared to traditional non-fenestrated catheters

"It's time to rethink needle decompression techniques and device characteristics to optimize success"

Circulation & Vascular Access

APRU - 6L AUTONOMOUS PORTABLE REFRIGERATION UNIT - 6 LITER

Features

- FDA Listed & AABB Certified
- Complies with Blood Bank requirements
- Rugged design, easily transportable
- Waterproof and dustproof
- **Authorized** for use on board UH-60L, UH/HH-60M, and UH-60V Army helicopters in battery powered mode

Storage

- Internal temperature: 4.5°C ± 0.8°C
- Duration: 95 hrs @ 24°C (@ 75°F) on single battery charge
- Volume: 4 L (4.4 qt)
- Unit capacity: Six 500 ml bags

Temperature Recording

- Frequency: 4 hours
- Duration: 72 days
- Accuracy: ± 1°C, class 2 (k=2)
- Calibration: NIST Traceable

LifeFlow® PLUS BLOOD & FLUID INFUSER

“TIME IS TISSUE,”

Every minute of continued hypotension can result in more organ injury. LifeFlow® PLUS offers a simple way to restore perfusion with rapid and controlled delivery of fluids and blood.

LifeFlow® VOLUME RESUSCITATION. WHEN MINUTES MATTER.

> RESUSCITATE

**500 ml in < 2 minutes
Stay with Your Patient**

Deliver first bolus quickly to reverse hypotension in patients with shock

- Provide active resuscitation
- Maintain control over delivery

> RESTORE

**Improve Perfusion /
Reverse Shock**

Assess using vitals & bedside markers of perfusion, decide if additional fluid bolus is needed.

Early fluids more rapidly reverse shock & **improve outcomes**.¹⁻³

> REASSESS

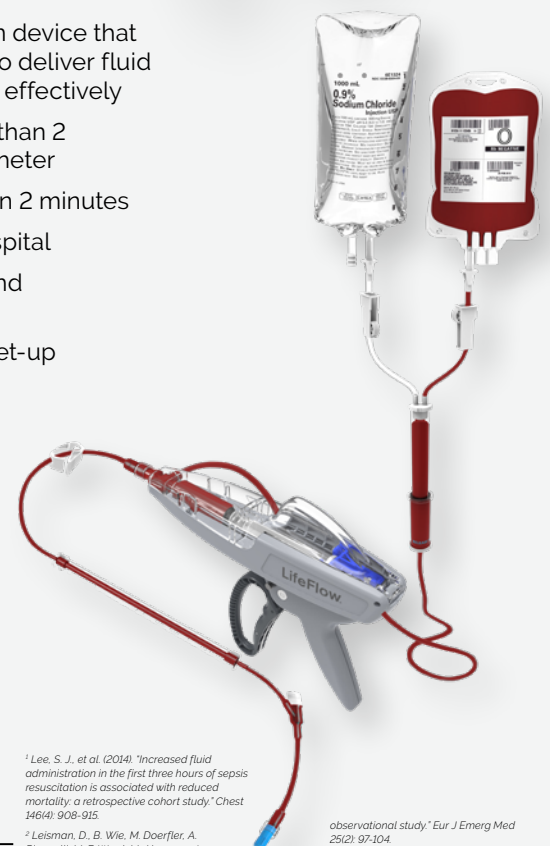

Rapid Decision / Disposition

Each bolus delivered provides an opportunity to evaluate and determine next steps.

Faster resuscitation may lead to:

- Less mechanical ventilation⁴
- More rapid disposition
- **Less donning/doffing of PPE**

- Hand-operated, rapid infusion device that allows health care providers to deliver fluid & blood products quickly and effectively
- Deliver 500ml of fluid in less than 2 minutes through a 20G IV catheter
- Deliver 1 unit of whole blood in 2 minutes
- Goes from the field to the hospital
- Can be operated with one hand
- Handle and tubing packaged together for quick and easy set-up
- Designed to protect the syringe from bacterial contamination
- Average time to set up and prime: less than 3 minutes

SPECIFICATIONS

12 in. x 7.5 in. x 2.75 in.
Weight: 0.95 lb

KOBUS ROLLUP LITTERS *and Accessories*

*The **optimal** solution for rescue in confined spaces, heights, depths and horizontal rescues.*

- Integrated lifting bridals for vertical and horizontal
- Hoistable. Easy transition between vertical and horizontal hoist
- Fits in confined spaces
- Integrated struts prevent buckling or pressure on the patient
- Material is chemical resistant
- 10 stainless steel triangular, permanently affixed, lifting / attachment plates with 3 essential grommets per plate for accessories and fixation are standard
- All webbing is certified to international standards for lifting, climbing and flight requirements including the handles and securing straps (Meets NFPA Standards, European Norm (EN), FDA Class 1 Medical Device)
- Standard Cobra steel buckles on all securing straps
- Multiple aeromedical certifications for helicopter winching / evacuation operations
- Bullnose design is ideal for drag in snow and undergrowth environments, and provides superior head protection in rescue scenarios

First responders have increasingly become **the target of violence** in recent history.

Nationwide, **violent crime is rising** at an alarming rate, translating to a higher call volume. With the **sharp decline** in the **police presence** which has historically provided scene safety for Fire/EMS, First Responders are experiencing a **dramatic increase** in **dangerous** and **potentially violent situations** in their everyday operations. Unfortunately rescuers in the Fire/EMS arena can be perceived as just another target for potential life threatening violence along with their law enforcement counterparts.

Now more than ever, your **personal safety is paramount** in the performance of your duties. Wearing **ballistic protective equipment (BPE)** is one of the best ways **to help protect yourself** in a violent environment.

PROTECT & SAVE Yourself Lives...

Law enforcement transitioned to wearing body armor on a daily basis in the 1980s because they realized it was an essential component of their daily equipment.

It saves lives! In the same way, BPE is critical for Rescue Task Force (RTF) and Tactical Emergency Medical Service (TEMS). Fire/EMS should now consider Ballistic Protection Equipment for daily wear on any call that could result in violence or an unsafe environment.

Protecting Yourself means you can Save others AND Live to serve another day!

Multiple Injury Trauma Kits

MINI TRAUMA SHEET BAG

Designed for portability, visibility, and easy access

Introducing the NAR® Mini Trauma Sheet, a portable, compact carry sheet that can carry life saving equipment. Contents can be customized to meet your mission requirements. The Mini Trauma Sheet can be rolled up to be carried to an incident, or hung in an ambulance, vehicle, or aircraft for easy access to medical supplies.

The Mini Trauma Sheet features clear vinyl pouches for easy identification of contents, and each pouch can be accessed through the large zipper opening. Pouches have loop fields enabling the use of hook and loop name tape labeling such as Bleed, Breathing, MISC, etc (name tapes are not included).

SPECIFICATIONS

Closed: 13 in. W x 9.75 in. L x 2.75 in. D

CIVILIAN EMS COURSE OFFERINGS

ENROLL TODAY!

IMMERSIVE

HANDS-ON

INSTRUCTOR
LED

NAR C3

42-hour in-house course for IBSC critical care course certification or re-certification (FP-C or CCP-C) and national registry re-certification. Students will learn or refresh all skills and knowledge needed to certify/re-certify, and will earn 42 hours of IBSC and National Registry Continuing Education.

PHTLS

The Pre-Hospital Trauma Life Support (PHTLS) Provider Course was developed by NAEMT for EMTs, AEMTs, Paramedics, Nurses, Physicians Assistants, and Physician. This is a 2-day in-house course based on a philosophy stressing the treatment of the multi-system trauma patient as a unique entity with specific needs. PHTLS promotes critical thinking as the foundation for providing quality care through hands on skills and high-quality lectures.

Enhanced HEMCON

8-hour course oriented towards non-medical members of the community. Students are trained to identify and treat massive hemorrhage through lectures, hands-on skills, and realistic trauma scenarios. Students receive critical knowledge on how to respond to preventable bleeding deaths prior to arrival of EMS.

Initial EMT/AEMT Hybrid Course

NAR Training offers students entry level education and training for emergency medical professionals. Self-paced online learning combined with a hands-on skills week with clinical labs are designed to prepare students to pass the NREMT test while allowing for schedule flexibility. Completion of this course allows student to take National Registry exam.

EMT/AEMT/Paramedic Online Refresher Course

NAR Training offers students ongoing education and retraining for emergency medical professionals seeking to maintain and improve their practice competencies and stay ahead of new industry developments and technologies. Our online courses offer the flexibility vital for busy professionals in pursuit of career advancement. This training is CAPCE accredited and meets or exceeds the NREMT's requirements for Continuing Education.
