

BAM MOUNTS FOR MACHINEGUNS

BAM MOUNTS ADVANTAGES

- **NO NEED FOR HOLD-OVER ESTIMATION**
 - users simply dial in the estimated distance and aim directly at the target – eliminating guesswork and increasing engagement speed.
- **RAPID DISTANCE COMPENSATION**
 - dual, calibrated adjustment knobs enable fast and intuitive distance settings from 200 to 1,000 meters, depending on model and caliber.
- **SEAMLESS MAGNIFIER INTEGRATION**
 - compatible with Aimpoint 3X and 6X magnifiers using FlipMount or TwistMount rings, enhancing target identification and precision at extended ranges.
- **CONSISTENT OPTICAL ALIGNMENT**
 - the integrated Flip Mount/TwistMount base keeps the red-dot sight perfectly centered within the magnifier throughout adjustment, ensuring a stable and repeatable point of aim.
- **VERSATILE PLATFORM COMPATIBILITY**
 - designed for reliable performance on both rifles and machine guns, making it suitable for a wide range of weapon systems.
- **ROBUST, FIELD-ORIENTED DESIGN**
 - engineered for demanding environments, delivering durable, dependable operation under operational stress.

EXPERIENCE PRECISION LIKE NEVER BEFORE – SPUHR BAM MOUNTS

Spuhr sets the standard for innovation with a premium line of mounts engineered to deliver the ultimate shooting experience. Our BAM mount series offers unmatched versatility – rotate the magnifier out of the way in seconds or remove it completely with a simple push of a button.

The BAM mount is designed for quick distance compensation when using a red dot sight. Featuring dual knobs calibrated for distances from 200 to 1,000 meters (depending on model and caliber), the BAM also supports attaching an Aimpoint 3X or 6X magnifier using a Flip Mount ring or the Aimpoint TwistMount for enhanced long-range accuracy.

The integrated Flip Mount/Aimpoint TwistMount base ensures that the red dot remains centered in the magnifier or night vision device as it moves parallel to the sight. This eliminates the need for hold-overs, allowing users to simply adjust the knob to the estimated distance and aim directly

at the target. The BAM is effective for both machine guns and rifles.

STANDARD VERSIONS:

FLIP MOUNT (PATENTED):

800-meter version: For 5.56 NATO. SM-101QD-4

1,000-meter version: For 7.62 NATO. SM-101QD-3

LEGACY TWIST MOUNT (AIMPOINT TWISTMOUNT):

800-meter version: For 5.56 NATO. SM-101QD-2

1,000-meter version: For 7.62 NATO. SM-101QD-1,
NSN 1005-22-639-7272

(Custom calibrations and distances are available upon request with a minimum order quantity.)

DUAL RED DOTS

Additionally, the BAM can be configured to mount two red dot sights, each zeroed for a separate barrel on a machine gun. This allows the gunner to activate the sight corresponding to the active barrel, improving first-shot hit probability without the need for tracers.

SPECIFICATIONS

SM-101QD-1 BALLISTIC ADJUSTMENT MOUNT TWIST MOUNT 1000 M (7.62 NATO)

Settings: 200/300/400/500/600/700/800/900/1,000 m

Tolerances: 0.4 MIL at any setting

Weight: 356 g / 0.79 lb

Material: 7075-T651 (minor parts stainless steel)

Finish: Black Hard Coat Anodizing

NSN 1005-22-639-7272

SM-101QD-2 BALLISTIC ADJUSTMENT MOUNT TWIST MOUNT 800 M (5.56 NATO)

Settings: 200/300/400/500/600/700/800 m

Tolerances: 0.4 MIL at any setting

Weight: 356 g / 0.79 lb

Material: 7075-T651 (minor parts stainless steel)

Finish: Black Hard Coat Anodizing

SM-101QD-3 BALLISTIC ADJUSTMENT MOUNT FLIP MOUNT 1000 M (7.62 NATO)

Settings: 200/300/400/500/600/700/800/900/1,000 m

Tolerances: 0.4 MIL at any setting

Weight: 322 g / 0.72 lb

Material: 7075-T651 (minor parts stainless steel)

Finish: Black Hard Coat Anodizing

SM-101QD-4 BALLISTIC ADJUSTMENT MOUNT FLIP MOUNT 800 M (5.56 NATO)

Settings: 200/300/400/500/600/700/800 m

Tolerances: 0.4 MIL at any setting

Weight: 322 g / 0.72 lb

Material: 7075-T651 (minor parts stainless steel)

Finish: Black Hard Coat Anodizing

(Custom calibrations and distances are available upon request with a minimum order quantity.)

PROUDLY PRODUCED IN SWEDEN

QUALITY

High-stakes real-life use can be rough on gear. This is why quality and durability are non-negotiable for every single product we make at Spuhr®. Professional users need to be able to rely on their equipment being there for them and that it performs every time and under any conditions.

At Spuhr® our world leading level of quality and attention to detail governs everything from the development all the way through production. 99% of our production is in-house with ISO certified production techniques and draconian quality management. This, combined with the truly innovative designs of Spuhr® products will enable users to reach their full potential in the battle field

In settings like this quality is not just nice to have – it means trusting your gear.
